1804 DOLLAR RUMBLES TO $3.7 MILLION
TYPE, COLLECTOR COINS & GOLD STRONG AT CSNS

The Market in Depth

The rare coin market has been experiencing widespread prosperity lately, so it didn't need a jump-start from a 5.2 earthquake. Nonetheless, the April 18, 4:37 a.m. jolt gave collectors and dealers an early wake-up call for the day's business. So, what was shakin' at the CSNS, besides the ground? Most dealers we talked with reported that wholesale transactions were very good to excellent. The bourse in Rosemont was quite active, and participants were pleased with their show results and felt generally optimistic that this prosperous trend of diverse demand would continue. It is generally agreed upon that two major factors driving today's market are: An ever-expanding collector base, and ongoing strength in precious metals.

Collector coins in general and Mint State and Proof Type in particular were the hot items at the Midwest gathering, being heavily contested and selling rapidly when the price was right. Regarding Silver, collectors were searching for examples boasting original surfaces, pretty toning, and eye appeal. Blast white, well-struck lustrous specimens were also targeted. Early Copper coins were clearly in demand at the show as well. In addition to the rare and costly Red and Red-Brown material, the much more affordable Brown examples exhibiting a light chocolate hue were getting significant attention. Spot-free Gold Type, especially in MS64 and better grades, was in demand on the bourse. Pre-1840 issues, dated Libs, and key/semi-key Saints had many suitors. One dealer sold an NGC MS64 1920S $10 Indian for $195,000. Another found a willing buyer for a PCGS MS67 1909D $20 Saint-Gaudens at $240,000. Richard Nachbar conducted a sealed Bid sale of 66 lots, mostly in CAC approved old holders, that realized $489,000. Understandably, the Gold stickered slabs realized prices in line with those grading 1-2 points higher, which probably would have been the case even without the designation, but the CAC assurance certainly doesn't hurt. A couple examples include: a PCGS MS62 1813 $5 Capped Bust, CAC Gold, at $30,000 and a PCGS MS63 1801 $10 Capped Bust, CAC Green for $112,555.

Dealers are currently looking to gather up some 2008W American Silver Eagles, mistakenly struck with the 2007 reverse, and are paying a whopping $100 for each. The redesigned '08 reverse is easily identifiable by the "fancy" letter U in UNITED, featuring a bit of a tail, while the 2007 and earlier reverses have the standard U. Both Unc versions reportedly have been found with this error, though no Proof examples have been seen. The current Silver Eagle shortage, a result of U.S. Mint rationing, may get worse now as all eyes are on the lookout for the '08 Eagles with the '07 reverse.

Heritage's April 16-18 sale, held in conjunction with the show, realized $28.8 million. Some of the many highlights are included herein.

This Week's Market

CENTS THRU HALVES: The push is still on as buyers are circling the wagons hoping to capture the somewhat elusive early Lincoln rolls. As demand is at a fever pitch for just about all wheatics, dealers are championing the cause as Bids are escalating for singles through roll sets from 1934-1958. Sundry Jefferson Nickels from the 40's are getting some action and the popular 1982P rolls top $220.

MERCURY DIMES: In addition to the multitude of Full Banded commoners in demand buyers are still willing to raise the ante for those treasured key dates. Both 1921's get a boost in Choice, and the 1928D-S both claim higher turf in MS63-64.

WALKING LIBERTY HALVES: Key Walkers are on the rampage as an absolutely amazing Bidding frenzy is covering the inaugural 1916 through 1934 in Gem. Take a look as the matriarch, 1919D, claims 6 figures sporting a $100K offer, and the crowned prince, 1921S, reels in $90K. The same buyer is sprinting home for some select dates from the short-set as the key 1941S tops $970 in MS65.

DOLLARS: Considerable Morgan muscle is flexing again as anxious Bidders line up, and not only for generics across the grading spectrum. The King, 1893S, is holding court again as several of the royalty in Mint State columns are slamming ahead. A handful of tougher New Orleans issues are a fine entrée in MS64 and better as the popular and usually weakly struck 1894O tops $8K in MS64. DMPLs still excite too, as over 3 dozen are on the upswing. Peace Dollars are certainly no slouch either, as higher offers affirm the excitement here in Very Choice and better.

PROOF SETS AND MINT SETS: The pride of the modern Proof Set era, 1936-1951, remains vibrant with supporting action. 2001S 10-piece Proof Sets are getting a nice push to $85 Bid. Mint Sets are starting to stir as visible support at present levels is growing.

COMMEMORATIVES: The popular Lexington-Concord has fired a minor salvo as MS65s capture a $415 offer. Booker T. Washington and Washington-Carver Sets are on the move in Circ. Gold Commems are still beaming with demand as supporting Bids are seen in virtually every grade.

TYPE: Buyers are pacing impatiently in front of the Type deli waiting for their orders to be filled. Everything from MS65BN Draped Bust Half Cents through Draped Bust Small Eagle Dimes in MS65 is soaring. For the latter at $80K, this represents over a 55% run-up in just 2 months. All early Silver Dollars are also on this high-end menu as action is hot and heavy. Proof Type mirrors extreme demand as gains are solid and widespread with nearly a 20% price hike spotted for Lib Seated No Motto Halves grading PR63.

GOLD: Even though Spot remains above the $900 plateau, a bit of a sell-off is occurring for problem free Gold Type in MS65 and better. In contrast, Gem Type II Dollars are again the center of commotion as the limited supply of these diminutive wonders has driven the price of MS65s to $34,700, which incidentally reflects over a 15% advance since our January 4, 2008 edition.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

MARKET STRONG FROM TOP TO BOTTOM
SPOT GOLD LOSES SOME LUSTER

The Market in Depth

Collector and investor demand continues to infuse the rare coin market with phenomenal strength. From top to bottom, problem-free examples exhibiting eye appeal and original surfaces are being snapped up as soon as they become available. In fact, quite a backlog exists for both the high-end rarities and the bread-and-butter generics. This need for coins at each end of the spectrum makes for quite a robust and dynamic marketplace. Indeed, many individuals are deeply involved in the hobby of collecting in the same fashion that their parents and grandparents were, filling holes in Quarterboards while adhering to a modest budget. Then we have the big players—a new breed entirely, spending tens of thousands, hundreds of thousands, and even millions of dollars in a highly competitive endeavor. Many of these well-informed collectors were involved in numismatics as children, and are now in a perfect position of affluence to acquire those treasures they only dreamed of as youths. Set registry participation is a big part of their collecting enjoyment, driven by completion ratios, grade averages and ultimately, bragging rights. Amassing one's set requires weighing decisions very carefully regarding grade versus set completion, as each has significant bearing on the overall set rank. One of the many benefits of registry set building is that sharing one's achievements through this medium is just a few clicks away, as photos, descriptions and stats all are on the web. In any case, the ongoing, intense desire to fill, and often upgrade, collections will keep collectors of both extremes, and very importantly, dealers quite busy well into the future.

Of particular interest in today's bull market is the fact that the presence of multiple negative factors has apparently had little or no damaging effects. Certainly, a weaker economy, counterfeit slabs, coin doctoring, gradeflation, and the "Ohio incident" all had the potential to harm the hobby, but simply haven't done so, at least not to a significant degree. Clearly, the coin juggernaut has been too strong to stop, rolling with profound power for the last seven years. Numerous individual specimens with multi-million dollar price tags have been selling time and time again, including the recent trade of a Class I 1804 Draped Bust Dollar, now in the hands of a happy collector for just over $3.7 million. There is no arguing that, in spite of the many numismatic slings and arrows challenging both dealers and collectors today, the current bull market is one of the strongest and longest running in recent history.

Dealers have been maintaining an extraordinary pace lately. A brief break is well-deserved and probably desperately needed, but activity will pick up again quickly. May 10 offers the Early American Coppers Club private auction in Irving, Texas. A couple highlights include a 1797/8 S-151 R3 VF25 Cent and an 1844 N-6 R3 MS62, second finest known Cent. California is up next, with the all-important, May 29-31 Long Beach Expo and surrounding auctions.

This Week's Market

MERCURY DIMES: Seemingly never out of vogue, these highly collectable obsolete Silver coins dating back to WWI retain their visual vitality with collectors. As value seekers hunt for frosty white Full Banded sleepers, the tougher to find 1918D drifts back a bit in MS64FB.

WALKING LIBERTY HALVES: Walkers, especially those key early offerings, are certainly stepping lively as all the recent advances remain in place. Aggressive Bidders are playing for keeps, looking for those tough inaugural rarities. Blast white generics from the short-set lengthen their stride with legions of buyers at prescribed levels.

DOLLARS: Silver Dollars, especially Morgans, have always been a favorite of new collectors as well as those long-established numismatic acquaintances. As forceful Bids attempt to satisfy raging demand for Circ through Ultra Gems, an elevated $315 offer is challenging MS66s to appear. It's not just commoners, though; keys and semi-keys are forcing dealers' hands higher. Take a look as the first real key to the series, the 1879CC, muscles to $24,500 in MS65, and the conditional rarity, 1879O, drives to $12K in lofty MS66. Not to be left out of the limelight, the immensely popular Proof only issue, 1895, reflects immediate desire in several high-end grades with PR67s blitzing to $92K. A swarm of DMPLs are buzzing with activity and continue to fly higher. A half dozen Peace Dollars in Gem pound ahead with the focus firmly on valued San Francisco players. The 1925S and 1928S take the lead at $20,600 and $19,200 respectively.

PROOF SETS AND MINT SETS: If you're a late date Proof Set fancier, perhaps this is your week for a bargain. Several from the 70s to early 90s have eased back due to a heavy supply on the market. Mint Sets copy this sentiment as virtually the entire field from 1984 to date drift a bit lower, too.

COMMEMORATIVES: Lafayette, Hawaii and California Jubilee are showing Bidder support in multiple grades. Within Classic Gold, 1916 McKinleys power up to $1,600 in MS65. Premiums are increasing for 2008 Unc American Silver Eagles, which continue to be rationed by the U.S. Mint. Even though about 47,000 Burnished 2008W with the '07 Reverse have reportedly been made, dealers are still offering up to $175 each for quantities.

TYPE: With freshness and eye appeal prerequisites, early Copper gets a boost as brothers Chain and Wreath 1793 Large Cents make a case traveling to higher turf. The former is linked to a $65,500 offer in AU and the latter pushes over 10% to $30K in MS60BN. Liberty Seated Dollars are also on the move with both versions rising in MS65. Proof Type reveals the popular Liberty Seated No Motto Halves escalating to $2,700 in PR64. One anxious buyer is hot for PR64 Shield and Liberty Nickels and is angling for at least 50 of each at current levels.

GOLD: As the yellow metal's magnanimous muster has lost some of its spark, all the bullion sensitive players are retreating. Select high-end Gold Type is fairing better, though. Ever-in-demand $3 Princesses are cavorting in a higher rent district with hard to locate MS65s now claiming $19,500.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning but it should not be so dark as to hide any problems): will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

BOTH SIDES OF COIN MARKET HOT
1795 EAGLE ON AUCTION BLOCK

The Market in Depth

Dealers have been very pleased with the coin market's activity and strength so far this year. One east coast dealer said, "We had an incredible four months." Almost everything is strong, especially the nicer quality pieces and scarce dates. Not all has been smooth sailing, though. There was a major blip within the metals market as weakness resulted in a short but very noticeable interruption in at least one electronic trading network, particularly with generic Gold. Most dealers pulled their Bids/Asks to assess the situation. Collectors also took a brief hiatus from purchasing bullion-related numismatic material as Gold dropped to nearly its lowest point of the year. This fall represented a loss of over $150 an ounce from Gold's recent peak in March when Spot vaulted over a thousand dollars. Some shop owners reported feeling like they were in a ghost town for a week or so after enjoying year after year of virtually nonstop business. Things seem to be back to normal now, and demand from persnickety buyers has become apparent once again. Dealers understand they must pay more to buy the attractive coins these fussy collectors are hot for, and they aren't afraid to spend that extra money. This material can definitely sell for top dollar, making a nice profit as sophisticated collectors and speculators are clearly willing to pay strong money for extra quality. There is also a large group of coins that don't measure up to this premium quality level, and some of this material sits in cases show after show with no takers and little interest. These coins can often be sold quickly and easily in the sight-unseen marketplace where several marketmakers are very active. Money is on the table, ready to buy even the worst possible examples, which sometimes bring even more than retail auction prices. So, there is definitely a two-tier market in place, both of which are flourishing.

Type is especially strong for Flowing, Bust and Seated in both Half Dollar and Dollar denominations. Lincoln Cents have been on fire in all colors and flavors. Buyers are lined up to add these jewels to their portfolios. Matte Proofs, key and semi-key dates and even common Circs are all sought after. Anticipation of the newly designed circulating Commemorative '09 Cents has obviously had an impact here.

The Texas Numismatic Association is holding their 50th Texas State Coin and Currency Show, May 16-18, in Fort Worth. Two **Proof** Gold Sets will be on display: a million dollar 1885 six-piece set, and an 1898 four-piece set valued at $750,000. Next is the Stack's auction of the Minot Collection, May 21-22 in New York City. A complete set of Walkers, all housed in older PCGS holders with green inserts, will be offered. Additional highlights are listed herein. Also, the Long Beach Expo and surrounding auctions are on the horizon beginning May 25 with the Goldbergs and Superior, both in Beverly Hills, and of course the Heritage auction beginning May 27.

This Week's Market

CENTS THRU HALVES: Demand is red hot for Lincoln Wheaties, and is spilling over for many post Memorial Type too. Several Jefferson Nickel installments from the 40s are on the upswing. Mint State Georgia and Connecticut State Quarter rolls all move up at $27 and $16 respectively.

MERCURY DIMES: Although buyers seem to be in no great rush to raise the Bids, oodles of common material and scarcer entries are being courted in Circ through Ultra Gem.

WALKING LIBERTY HALVES: Walker's core of diehard followers are keeping things lively in the upper echelons as the always in demand 1919 runs up an offer of $5,900 for challenging MS65s. Key dates in Circ are also on the move and short-set disciples make their presence known as problem-free examples are desired in all Mint State qualifications.

DOLLARS: This report delivers a trio of slightly more collector friendly offerings to the forefront as the inaugural 1878 8TF variant in MS65 claims $1,150. The next to last Carson City entry, 1892CC, tops $2,750 in Very Choice, and the popular 1894S reels in $1,650 also in MS64. The Peace Dollar bandwagon is rolling along too, as one of the keys, 1925S, climbs to $21K in MS65. Without a doubt this San Francisco coin is tough to come by in Gem, yet for those patient enough to locate a pleasing MS64 could do so at about 1/25th the price.

PROOF SETS AND MINT SETS: A plethora of Proof Sets from 1968S to date are drifting back. For newcomers, there could be some values here as the majority of these easily found issues are Bid at $10 or less. Mint Sets are faring better as a pair including the 1970 Bid at $14.25, are edging higher and none descending.

COMMEMORATIVES: With only one dissenter and a trifle more supporting interest, the continued flashes of life bodes well for the Classic Silver contingent. We also hear from several sources that buyers are attempting to squirrel away eye-appealing, high-end representatives while they can still be choosy at current levels. The 11-piece Gold ensemble has a few minor detractors yet needs no formal introduction with most buyers.

TYPE: Once again a well balanced Bidding attack is targeting some early federal Silver monsters. The King of Type is dealers' source of Bidding panegyric as Draped Bust Small Eagle Halves roll ahead in several Circ columns with desirable XFs topping $95K. Draped Bust Large Eagle Quarters fly in Mint State led by the $72K offer for MS65s. Proof Type returns the favor as every Matte Proof Lincoln Cent color combo is on buyers' must have list. Shield and Liberty Nickels along with several others in the collector friendly $1,000 or less tier, edge up too.

GOLD: For many buyers it's a calculating waiting game. As Gold Spot begins to rebound, dealers not wanting to get caught in the volatility are being selective in their purchases for inventory and customers. $20 High Relief Saint-Gaudens are climbing in a pair of Circ grades, quite possibly due to the much anticipated release of the 2009 recreation.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise interior rolls are worth less than listed prices and [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury [illegible] bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem [illegible] strike Walker [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the [illegible]

OGH AND CAC, A GOLDEN OPPORTUNITY?
LATE MAY AUCTIONS FAST APPROACHING

The Market in Depth

The rare coin market continues on its prosperous way as we wind through this busy season. Dealers remain optimistic about current affairs and are bullish on the immediate future. Several local and regional shows have been providing excellent opportunities for dealers preparing for the big national Long Beach show approaching fast. Of course, the goal is to pick up as much hot material as possible, knowing that it's sure to sell in California. This break between major shows has certainly helped in terms of liquidity, affording dealers plenty of cash to acquire fresh material at the smaller venues. Flowing, Bust and Seated coinage in nearly all denominations fits the bill, especially those Fine and better Circ examples with plenty of "meat." Of course, just about all problem-free, attractive Type is super hot nowadays. Our Type columns have been adorned with multiple plus signs nearly week after week.

Recently, a Floridian dealer received a call from a colleague who had a small collection for sale. He had bought 50 coins from an heir of a collector that consisted mainly of Gold. This collection included decent generic material, but the nearly complete run of Carson City Double Eagles is what stood out. Missing only the rare 1870-CC, the group was all the more interesting in that each was slabbed in the older, green PCGS holders and graded from VF35 through AU58. The deal was negotiated for $110,000, and now some of these Carson City beauties are being placed with extremely happy collectors. Others are being sent off for upgrading. Of course, another option for dealers today is sending such coins to CAC for a good shot at a green sticker, and even a chance at a gold sticker, with a much shorter turnaround time and less cost as compared to the upgrading process. At the recent CSNS, Richard Nachbar sold a number of Gold coins in older green holders, most of which were CAC approved with either the green or gold sticker, for significant premiums in a sealed Bid sale. A coin in an old green holder, or OGH, is virtually guaranteed not to have been messed with for decades. Any doctoring that may have occurred back then, when methods were more rudimentary, would likely be blatantly obvious today, having had plenty of time to turn. In addition to having been graded more conservatively, an OGH is also a piece of history in itself, along with the coin it has been protecting for years. The trifecta of nostalgia, 20 years of peace in a time capsule, and most likely undergraded make OGH slabs very sought after in today's market. In fact, Teletrade will be offering a special collection of 250 OGH coins June 1, with highlights being on display at the upcoming Long Beach Expo.

This Week's Market

MERCURY DIMES: For those on a limited budget (or those anxious to use their stimulus refunds) this is also one of the few obsolete sets that can, with a measure of patience, be assembled in its entirety in original silver grey Circ condition.

WALKING LIBERTY HALVES: Walkers' far-reaching demand has been vexing on some buyers as the entire ensemble is under pressure. Better, problem-free Circs through big ticket early Gem issues just can't be found in quantity. Complicating matters, the always in demand short-set has numerous suitors too, all of which are anxious to amass as many as possible in frosty Mint State condition.

DOLLARS: Most Silver Dollars are still sizzling as demand for generics and scarcer offerings in true MS65 and better are the hot items here. The tough and very popular 1883S, which usually provides us with a strong strike, yet heavily bag-marked surfaces, is climbing the Bidding pole in MS64 and MS65. As the latter pounds ahead to $28,500 on the heels of a $2K boost, the scant PCGS/NGC community of but 30 in MS65 and only a half dozen rated higher confirm this conditional rarity. The only "affordable" entry of the 1893 campaign's Philly delivery plows ahead to $6,600 in MS65. DMPLs are reflecting intense demand as nearly 6 dozen ratchet higher. Peace Dollars are observed playing the part of the strong silent type, quite convincingly, as supporting Bids envelope this segment.

PROOF SETS AND MINT SETS: This area of the market still needs a jump start. Several later date Proof Sets are surrendering modest ground as the 1999S Silver Set rolls back to $290 Bid. Mint Sets tell a similar tale with a better ending as the 2002 and 2006 installments each edge higher.

COMMEMORATIVES: Neither a house of fire nor a fire sale, what we do observe among the Classic Silver Commems is a firming of support. None are dissenting, and the popular 1925 Lexington-Concord is keeping watch on a pair of rising Bids: MS65s muster a $430 offer, and MS66s advance to $1,110. The Classic Gold tribunal once again wears a cloak of supporting action as the 1926 Sesquicentennial Quarter Eagle flutters to $3,000 in Gem. Burnished 2008W Silver Eagles sporting the Reverse of 2007 are soaring even higher with buyers, now offering $250.

TYPE: Classic and Braided Half Cent factions are targeted in several Mint State columns as MS65B specimens race to $1,000 and $850 respectively. Proof Type rallies as most Liberty Seated denominations are piping hot. The popular Liberty Seated Quarter and Halves with Arrows are both enjoying solid action in PR65. Increases are also found with Morgan and Trade Dollars in Gem Proof and the rare Gobrecht Pattern Dollars in several grades, topping off the excitement.

GOLD: As the yellow metal's gyrations perplex some pundits, most Gold Type is easing back again. Accordingly, buyers are carefully assessing the situation, utilizing frugal selectivity with any new additions to inventory at present. The glamour coin and always in demand St. Gaudens High Relief is sparking further attention, though, as dynamic MS67 specimens top $158K. Interestingly, the PCGS/NGC community reveals a hardy 48 specimens regarded as MS67 with 11 ranked higher.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

DEMAND FOR TYPE UNABATED

SS *NEW YORK* SUNKEN TREASURE TO ENTER MARKET

The Market in Depth

Demand for rare coins remains firmly in place, as witnessed at the local and regional shows held across the country each week. Dealers have a good opportunity between the larger national expos to pick up a few gems, and strengthen their inventories. Gold is a hot item to be sure, and not surprisingly, considering Spot is back to $920 for the first time in a month. Early and Branch Mint Gold, especially those from Carson City, are increasing in popularity. Rare dated Gold, along with better $20 Saints are also on the hit list. Early Copper has been rising above the already hot Type crowd. In fact, some dealers reported being cleaned out of their Copper at the recent TNA show in Fort Worth. Type has simply been on fire month after month, with plus signs popping up on our charts like daisies. These have not been limited to minor increases either. A plethora of significant Bid jumps have been occurring over and over again, making it clear that the rare coin market is continuing on its bull run well into its seventh year. Dealers simply won't give up on their attempts to pry these coins from the tight grip of collectors by upping the ante.

Dealers and collectors are now on their way to the Pre-Long Beach auctions, beginning May 25 with Goldberg and Superior in Beverly Hills. Heritage will begin their sale May 28, which is set-up day for dealers at the big Long Beach Expo. Then, it's off to the east coast for the Baltimore Show and Bowers & Merena auction, beginning June 5. Dealer attendance should be strong since some restrictions have been modified, allowing coin dealers to sell at all three Whitman shows and the ANA gathering in Baltimore without having to apply for a state trader's license. David Lawrence Rare Coins will feature a million dollar collection of Proof Seated Dollars in Maryland, which includes several finest known. These coins will go on sale via internet auction May 23, with lots closing two weeks later.

Four Louisiana locals who found the sunken treasure of the SS *New York*, valued at over $1 million, will see their discovery offered to the public soon. NGC/NCS has conserved, graded and encapsulated the recovered coins. The 165' sidewheel steamer, which provided light cargo and passenger service between New Orleans and Galveston, went down in a storm off the coast of Louisiana in 1846. A large portion of the bounty is considered one of the most important groups of Southern Gold ever found under sea, including an MS64 1845D Quarter Eagle; an 1844D Half Eagle graded MS63PL★; and an MS64 1844O $5. Silver coinage was also retrieved, including over two dozen different dates of Capped Bust Halves, punctuated by the rare 1815/2, and the first Silver Dollar ever recovered from a shipwreck, a 1795 Flowing Hair. According to dealer John Albanese, who is involved in the analysis of the coins, the discovery will cause no major disruption within the population reports. Public interest should ramp up quickly as these coins are coming to market soon, with some slated for auction by Stack's which can only help reinvigorate the shipwreck collecting segment on the market.

This Week's Market

CENTS THRU HALVES: Early Lincoln rolls are jamming again as buyers just can't reel in enough of the collectors' all-time favorites. State Quarters reveal that both P&D 1999 Georgia "Peach" rolls are ripening higher offers of $28.

MERCURY DIMES: Although none are really out of favor, buyers are not all that vocal either. In an attempt to keep the setting fresh, the key date 1921 moves up a rung in MS63 and MS64 while a group of late date Full Banded MS65s are easing back to $38 Bid.

WALKING LIBERTY HALVES: Walkers are making a mad dash as aggressive buyers are attempting to capture all of the prime early issues. It's perhaps not much of a surprise that many of these hard to find beauties are on the receiving end of over 10% advances in the coveted MS65 grade. A trio of better S Mint products from the short-set keep pace too, as the key here, 1941S, pulls up at $1,000 Bid in Gem.

DOLLARS: Not only are high-end generics imminently desirable, calculating buyers are placing hefty Bids looking to reel in many 5- and 6-figure keys in MS65. A few participating find the tougher 1880O bayou player rolling to $24K. Not to be out-dueled, both 1879CC versions pound ahead as the "Capped" variety tops $36,400. The king of the Philly contingent, 1901, rolls out the red carpet in a couple of columns as rare MS65s rake in $240K. Peace Dollars are not quiet either as this popular series is chock full of spirit. A trio of key San Francisco players heat up further in MS65 as the 1924 claims $9,300 while the 1925 and 1928 top $21,400 and $19,600 respectively.

PROOF SETS AND MINT SETS: A measure of new support is perceptible within the Proof Set sector as only a quartet of later issues is in reverse. Mint Sets are adding a bit more flavor this report as viable offers at current Bid are visible, and none are dissenting.

COMMEMORATIVES: Although several Classic Silver installments are on the outs, it's not a free-for-all. As the expendable digest their minor misfortune, sellers are really looking to generate some quick cash for the upcoming west coast shindig. The 11-piece Classic Gold group, though relatively stable, reveals a bit of a departure from the highly visible demand we have become accustomed to. Holding the fort, the mammoth Pan-Pac slug duo remains in charge, each with active suitors paying Bid.

TYPE: Can you feel the heat? Another Bidding blast is in full swing as buyers fervently attempt to pry some coveted high-grade Type into their folds. Early Copper is on fire as Circ through rarely encountered full Red wonders are surging. Early Silver Type is also intervening with some Goliath advances as Draped Bust Small Eagle Dollars roll to $375K in MS65. Proof Type is also a buyer's magnet as a pool of increases saturates the landscape with Liberty Seated denominations claiming the lion's share.

GOLD: With the golden pony galloping over $900 again, the obligatory dash for the generic Gold Type parade follows suit as MS65 $20 Saints claim $1,545. Most of the better, problem-free Gold Type in MS60-MS64 is also getting a gentle wake-up call.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark. These bring lower prices. "gem full steps" rolls (when available) bring higher prices. In the M[illegible] "bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem f[illegible] strike Walk[illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker [illegible] are in the CDN.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

HIGHER BIDS LURE COINS BACK TO MARKET

MEMORIAL DAY WEEKEND AUCTION BLITZ

The Market in Depth

In the midst of a blast of auction activity, dealers and collectors have been battling each other for some important rare coins. For example, Superior sold an 1879 $4 Flowing Hair Stella, NGC PR67 Cameo, for $402,500. Stack's also hammered down a coin for over $400K: a 1795 $10 Capped, 13 Leaves, graded MS63 by PCGS and bearing the CAC seal of approval. Goldberg brought in $103,500 for an 1895 Morgan Dollar, graded NGC PR66 Cameo, including a CAC sticker. Such strong prices are definitely reflective of the extreme need for nice, original rare coins. These exceptional results are also an indication of how buyers have become quite fastidious and realize that being a penny pincher won't add much quality to a collection in the current market. Premium quality coins are simply not going away cheaply as prudent consignors have been diligent in setting appropriate reserves, not allowing anything to slip through the cracks.

Stack's got the auction ball rolling with the $5.9 million Minot Collection, May 21-22, in New York. This sale included a collection of old green holder Walking Liberty Half Dollars that did quite well. Tough to find early dates from this popular series have been on many a want list, and these coins realized higher retail auction prices, as you might expect. The Memorial Day weekend was a busy one with dealers in Beverly Hills as the May 25-27 Goldberg and Superior auctions kept the action running full steam ahead. Now it's on to Long Beach, continuing the grueling pace in Southern California, where dealers have been busy conducting pre-show trading from their hotel rooms. Early birds are attempting to get a jump on the competition, as good results often depend heavily on the initial hours of this national show. These particularly dedicated dealers schedule their time carefully, allowing them the chance to view as many coins as possible before set-up day begins, gaining the first opportunity to buy the best material available. Often, coins bought before the show officially begins are traded four, five or even six times before the show's conclusion. Take a look at the included highlights from the late May auction blitz, representing Stack's, Superior and Goldberg.

Expectations for the Long Beach Expo have been generally upbeat, especially since Gold and Silver managed to stay above $900 and $17 respectively. With that in mind, the momentum should roll right into to the June 5-6 Baltimore Convention, which features an auction by Bowers and Merena.

This Week's Market

MERCURY DIMES: When Full Banded Gems or near Gem scarcities such as the matriarch 1916D or 1919D pop up for sale, buyers inevitably duke it out. This was confirmed by $24,438 realized at a recent auction for a 1916D MS64FB.

WALKING LIBERTY HALVES: As evidenced by the recent flurry of raised Bids and tremendous auction results, Walkers are running with zealous enthusiasm. While passionate buyers pick up the pace and try to flag down these tough early beauties, it appears the ante will no doubt be raised further in order to capture a few select offerings. Not to be left out, frosty, well-struck examples from the middle years and short-set remain on dealers' and collectors' wish lists.

DOLLARS: Morgan's magic spell is motivating many buyers to hoist the Bids on several of the series' elite. Take a look as the electrifying trio, 1889CC, 1892S and 1893S all roll higher the latter powering to $267K in MS64. Following the flow, a handful of slightly better dates bearing the lofty MS67 designation are also on the rise. Peace Dollars are vibrant as buyers attempt to cajole a quartet of scarcer MS66 examples from hiding with the perhaps undervalued 1934S topping $18K.

PROOF SETS AND MINT SETS: Prime time Proof Sets from 1936-1952 are still being supported by numerous dealers at Bid. Mint Sets watch quietly, remaining steady at current levels.

COMMEMORATIVES: Prosperity is far from embracing the Classic Silver Commem contingent as several move to yet lower ground. The Classic Gold disciples provide more unified support as buyers aren't at all anxious to let any of the 11-piece ensemble or Pan-Pac slug duo escape at below current Bid. The 2008W Reverse of 2007 American Silver Eagle continues to increase dramatically as buyers now offer up to $425.

TYPE: Early material is still smoldering as buyers have been frantically searching for quality offerings heading into the Long Beach Expo. 18th Century Type is still boiling over as the frequently feted Draped Bust Small Eagle Dime soars to $87,500 in MS65. The Large Eagle variant is also feeling the heat as MS60s climb a rung to perch at $5,550. Proof Type holds onto recent advances and tacks on a few more. Liberty Seated Quarters With Arrows rev up in several columns as PR65s flash a $7,200 Bid. Liberty Seated Halves With Arrows get in on the action in Very Choice and Gem with coveted PR65s muscling up to $11,600.

GOLD: As the yellow metal plays the part of the yo-yo, those delegated to near bullion status are drifting a tad lower. Many of the better Gold Type are affected too, as a cautious wait and see attitude confirms several pulling back. However, as Gold Spot wrangles to stay above the $900 benchmark, most of the golden elite, including MS65 Type II Dollars, $10 Libs With No Motto and the majestic High Reliefs, remain firmly positioned at current Bid.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be "certified" or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **sight-seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted therefore, they are all usually high grades

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre NO major distractions in field or on main devices Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade Must have eye-appeal

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin They range from very scarce to unknown according to date

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

PUBLIC ENEMY #1

Take a good hard look at this sinister character. Don't be fooled by the innocent smile, the cute nose, or the jolly, rotund belly. This is Public Enemy #1, the scourge of coin dealers and numismatists across the country. This pig (aka "Piggy") is one bad dude.

Last month he swiped a 1993 Roosevelt dime worth $25. Two weeks ago he was seen boosting a 1939 Washington quarter worth $120. And just last week, he got away with a 1990-S Kennedy half dollar worth $30. The list goes on and on. He has to be apprehended before he swallows every valuable coin in the country. Damn pig!

Here at Scarsdale Coin we've taken extraordinary measures to keep our coins safe from this insidious and odious pig.

In fact, our well-protected vaults hold over 65 categories of coins covering a wide range of both product and price. And we're constantly updating our inventory as coins are bought and sold. Our inventory often changes hourly.

Dealers and serious collectors will find virtually everything they need at Scarsdale Coin, including a friendly and knowledgeable staff.

We urge you to visit our website or give us a call. Our huge selection of coins is safe for now, but with the pig lurking out there, who knows?

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

To learn more about the big difference CAC coins can make in your collection visit **CACcoin.com**.

TYPE THRU ULTRA RARITIES HOT AT EXPO
HOBBY FRIENDLY BALTIMORE SHOW BEGINS

The Market in Depth

Eye-appealing Type and low-pop rarities were the driving force on the Long Beach Expo bourse as dealers tried to buy material for both their fastidious customers and their own depleted inventories. Even with increasing travel costs and a short recuperation time before the June 5-6 Baltimore gathering, nearly all booths were occupied, with all the big players present. Participation in the expo and its associated auctions was indeed high. The west coast auction totals reached over $62 million, with the lion's share going to the remarkable Goldberg sale, hammering $40 million. Superior brought home $2.6 million, and Heritage realized $18.4 million from which we have listed a few highlights. Teletrade had a particularly successful auction as well Sunday, June 1, bringing in over $1.1 million. This represents roughly 6 times the usual take, largely attributable to the fact that the coins in this sale were in PCGS old green holders. With a 100% sell-through, Teletrade achieved the highest grossing auction in their 22-year history. A few notable examples from this OGH sale include a 1909S Indian Head Cent graded MS65R, selling for $25,215; a 1910 Liberty Nickel with a grade of MS67, hammering $25,777; an 1861 Liberty Seated Half, MS66, earning $30,257; and an 1878S Trade Dollar, MS65, pulling in $17,377.

While the mundane material that a majority of dealers had on display remained stagnant, those offering a diverse and fresh inventory of exciting specimens found themselves in the driver's seat. Attractive, problem-free Type was on fire, as were key-date Lincolns, top-pops, and "CC" Morgan Dollars, including GSAs. Liberty Seated and Trade Dollar examples in PR62 thru PR64 were in high demand, also. Many believe that these issues in this grade range are seriously undervalued at today's levels. Another favorite in Long Beach was early coinage. Flowing Hair and Bust material had a strong showing on the bourse and at public auction. These coins adorn many want lists, and there is definitely too many buyers chasing after too few examples. Consequently, prices continue to push higher and higher. The only areas of obvious weakness were Silver Commems and generic Gold Type. Some dealers were simply trying to offload their Gold, content to break even or take a small profit rather than risk losing big if Gold drops further. Of course, coins boasting the CAC sticker were especially sought-after. While not everyone is onboard, CAC has certainly gained more acceptance with each show, and is clearly picking up steam. A quick glance at the cases proves how popular the sticker has become, with some dealers featuring CAC coins exclusively.

1907	$10 Indian, WR, Periods	NGC MS67	$149,500

The busy schedule continues this month, with the Whitman Baltimore Show and Bowers & Merena auction. Next month, Baltimore will fill up with dealers and collectors once again as the ANA World's Fair Of Money gets underway July 30. Attending both shows in Maryland will not pose a problem for dealers as Baltimore's newly enacted hobby friendly legislation means there is no need to apply for a state trader's license.

This Week's Market

CENTS THRU HALVES: As Silver Spot stutters, the bullion sensitive rolls are all easing back. To the rescue we observe a quartet of Lincoln rolls from the 40s on the move as the 1941S claims $325 while the San Francisco products from 1944-46 escalate by as much as 25%.

MERCURY DIMES: Demand for the key entries especially in problem-free Circ continue to escalate under buyers' pressure. Late date MS65 Full Banded material is still called for in volume.

WALKING LIBERTY HALVES: Walkers are blazing hot, with buyers lined up at current Bid for all of the series' elite prime-time players from 1916-1933 grading MS65. The short-set, though not as glowing, caters to a solid following with none displaying fallout and the 1943S inching up in MS64.

DOLLARS: Morgans continue to fight for bragging rights as aggressive buyers are digging deeper into their coffers levying another Bidding salvo. This current wave is rolling ashore for another swell of 5- and 6-figure rarities. Climbing up the ladder, key representatives like the '79CC, '80O, '83S, 84S and 92S are all highly motivated as the "king" 1893S rakes in $275K in MS64. Not to be left out, a host of semi-keys in MS66 and MS67 are also under a concerted attack as are the DMPLs. Peace Dollars remain on alert as the proud 1925S key tops $21,500 in Gem, and the illustrious and tough 1934S continues to push ever higher, claiming $18,500 in MS66.

PROOF SETS AND MINT SETS: As dealers attempt to free up cash for west coast purchases, a multitude of easily replaced late date Proof Sets are rolling back. Mint Sets second the motion with only the 2002 issue rallying to $15.

COMMEMORATIVES: Could demand for original and top tier Classic Silver Commems be on the rise? Take a look as the popular 1925 Lexington-Concord issue strikes a positive chord in MS65 and MS66 as the latter captures a $1,150 offer. The tougher Spanish Trail takes the high road as MS66s travel to $1,785. Classic Gold Commems, though sound, remain quiet this time around.

TYPE: This is the inferno that keeps the coin market's flame stoked. Early Copper is never a bust as Draped Bust Half Cents roll up advances in Choice through Gem with MS65BNs topping $6,800. Early Silver Type also rises to the occasion as the Small Capped Bust Quarters charge ahead in MS63-MS65 as hard to find Gems advance to $20K. Proof Type maintains powerful Bidders' resolve as Liberty Seated Halves with Arrow reveal a solid bump up in PR60 while the somewhat forgotten Mercury Dimes take a jaunt up to $210 in PR65.

GOLD: As the yellow metal comes up short in its attempt to maintain residence over $900, most bullion sensitive and better Gold Type continues to soften. Bucking that trend, the majestic and popular High Reliefs are advancing in MS62-MS64. Interestingly, with Gold Spot hovering around the same levels as the first of the year, a trio of problem-free MS65 Gold Type has faired very well. Since our January 11, 2008 report, leading with a 16% advance are the Type II Dollars, followed by the popular $3 Princesses at 15%. $20 High Reliefs roll ahead with an 8% escalation.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

To learn more about the big difference CAC coins can make in your collection visit **CACcoin.com**.

SELECTIVITY PREVAILS IN BALTIMORE
DOUBLED DIE LINCOLN CENT GRABS $42,550

The Market in Depth

The Baltimore show, located in prime collector territory, was generally deemed a success by those dealers in attendance. Public presence was strong, with collectors actively secking select coins. The true measure of success these days is the number of fresh, eye appealing coins one is able to buy or sell. Dealers savvy enough to bring with them fresh coins that haven't been tampered with were able to sell rather easily. Difficulty was predominantly on the buying side, as has bcen the case throughout 2008. Fresh material is absolutely scarce as the nice, interesting and rare coins have been disappearing rapidly from the market into the tight hands of knowledgeable collectors. It has been very difficult for dealers to locate and buy, at a reasonable price, coins that are considered to be original and attractive for the grade. Specimens that do meet these qualifications are often offered at prices that are just too far above the market to complete a transaction.

Type coins continue to dominate the attention of today's buyers, and that was certainly true in Baltimore. Pre-1900 Type coins are a hot commodity, and collectors are chasing Bust, Seated and Barber material with zeal. Still, buyers are extremely selective, unlike what we saw earlier in the year when they were willing to buy nearly everything in sight. Weakness is clear among generic Gold, and premiums have melted away for some. A similar scenario was seen in Long Beach. It appears that dealers are currently burdened with a heavy inventory of generic Gold they need to sell.

Teletrade has been making great strides in increased acceptance by the sophisticated numismatic community, as evidenced by their higher-end material for sale and higher prices realized. On June 22, Teletrade is poised to make history once again as the Kovach Collection, the third finest California Fractional set of all time in the PCGS registry, will be auctioned. DLRC has completed its sale of the Southern Seated Dollar Collection, an example of a new service which allows consigners, in this case a collector from Mississippi, to offer their own named internet auctions. These Proof Dollars brought in over $650,000, and included several finest known examples: The 1848 NGC 66, which realized $103,500; an 1844 NGC 66 Cameo, hammering $155,250; and an 1854 PCGS 65 Cameo, realizing $63,250.

The June 2008 Baltimore Auction by Bowers and Merena claimed $6.3 million. We listed a few of its many highlights. Stack's Husky and Glenn E. Bergstrom Collection auctions, June 25, are next in New York. The former features multiple, high-priced ultra rarities, and the latter is a fine assortment of collector coins. Dealers will then head south for the Summer FUN 2008 convention and Heritage sale in West Palm Beach, June 26-29.

This Week's Market

MERCURY DIMES: Although most keys in high grade are still accompanied by viable supporters buyers are content to remain pat with present Bid levels. On the other hand, much problem-free Fine and Very Fine material is accelerated under tactful advances once again.

WALKING LIBERTY HALVES: Walkers have already lengthened their triumphant stride and are looking to maintain momentum. This report confirms demand is billowing for those tough early year prizes with the accent squarely on solid MS65s. The popular short-set is relatively solid with buyers, although a Denver duo is spotted drifting a tad lower in Gem.

DOLLARS: Although generic offerings in Choice thru Gem have eased back to $38, $53 and $140 Bid respectively as a result of the enormous supply on the market, there appears to be no other dissension within the Morgan ranks. The beat goes on as a solid showing for scarcer dates in the loftier MS65-MS67 principality drives home the fact that rare dates, superbly preserved, are still in great demand. The popular 1903S tops $9K in MS65 while the scarcely encountered 1886S rallies in MS66 and MS67, with the latter climbing to $23K. DMPLs are grinning again, as nearly 4 dozen are beaming with higher offers. Peace Dollars maintain civility as the majority has waiting homes in Choice and beyond while the better 1922D reports in at $1,700 in MS66.

PROOF SETS AND MINT SETS: In addition to solid demand for 1936-1950 Proof Sets, a quartet of recent installments is on the upswing. Silver Proof Sets of 2001 at $130 Bid and 2002 at $50 are perhaps the springboard to launch a more rounded base of support. Mint Sets feature none dissenting, and the 2002 issue inches to $15.50.

COMMEMORATIVES: Classic Silver may finally be getting a wake up call. Slowly, buyers are beginning to sprout up at or near assigned levels. Leading the charge, the only Dollar attached to the Classic contingent, the 1900 Lafayette is galloping ahead on the strength of a $9K Bid in MS65. These Dollars always seem to be in demand, especially in problem-free original condition. Other popular issues such as the Hawaii, Hudson and Spanish Trail are all emerging from the shadows as buyers attempt to rejuvenate this composite of numismatic Americana. Classic Gold, although not reveling in new demand, remains stabile under the watchful eye of buyers. 2008W with reverse of 2007 American Silver Eagles remain in high demand. With a recent peak of $600, these goofs are now Bid at $520. NGC has slabbed 11,458 of these varieties, while 2,162 havc been graded by PCGS.

TYPE: This powerful component has absolutely amazing support. While buyers attempt to pick up suitable offerings at designated Bid, some tougher Mint State compatriots are clamoring for homes at higher levels. Capped Bust Dimes from 1828-37 are drumming up customers as MS63-MS65 mount advances with Gems topping $6,500. 1854-55 Liberty Scated Halves with Arrow receive a solid bounce, as MS65s roar to $8,200. Proof Type is blazing hot too, as nearly all of thc series are lively with supporting Bids reflecting early summer heat.

GOLD: For most in this segment, including the scarcer Gold Type, we see further easing back on the Bidding throttle. Seemingly oblivious to this cooling, colossal High Reliefs are maintaining current levels in Mint State forums, and $20 Liberty Type 1 examples in MS65 are up this week.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green or gold label PCI Bids are for slabbed coins only. INS bids are for blue certs. SEGS Bids are for labels without negative comments. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

COIN MARKET DEMAND TRUMPS ECONOMIC WOES

ALL TYPES OF F.U.N. IN FLORIDA

The Market in Depth

Demand is targeting the majority of the market segments in June, especially the Type arena. This strength has been evident throughout much of 2008 as collectors have tried to add a number of high quality representatives to their Type sets. Early Type has consumed the largest portion of the demand as dealers steer collectors towards those proven rarities. Bust material of all denominations is absolutely on fire as are Seated and Barber coinage. The big difference between the demand for Type today and from a few years back is that buyers have clearly become even more demanding of quality. It is the collectors' intense desire to purchase attractive, eye-appealing examples that has created both a challenge and a path to success for dealers. Affluent enthusiasts will pay a premium to get what they want fast, but dreck won't cut it. For example, $20 MS65 Saint-Gaudens are trading sight-unseen for $1,350, sight-seen for $1,490, and if the slab has a CAC sticker, it fetches $1,800. Clearly, today's collectors want the best, and will spend the necessary funds to get it. Classic, first-gen holders continue to make headlines as well, demonstrating the strong desire for originality. After all, the chances of these coins having been doctored in the last two decades is virtually null, making them quite tempting. Add to this the fact that most agree they hold coins graded too conservatively, at least by today's standards, and these classic slabs become all the more alluring. Unique, ultra rarities, top-pops and six-figure trophies are also seeing unabated demand in the current market, trumping the trend of the general economy.

Now that summer is here, dealers have a chance to regroup, prepare for the FUN Show, maybe take a vacation before the ANA, and just rest and reflect on the first half of the year, which has certainly been a strong one for coins, regardless of the price of oil or housing market woes. The U.S. Mint may be taking advantage of the slight summer slowdown with a few notable programs. Presidential Dollars are now selling for face value and no shipping fees to retailers, financial institutions and the public in an attempt to improve circulation of the $1 coin. There has also been recent discussion among dealers over the expected release of fractional American Gold Buffalo coins later this summer, which would give "Gold Bugs" an opportunity to buy U.S. Mint quarter and tenth ounce pure Gold fractionals for the first time. Gold Spot, at $884, is clearly making a strong comeback from a 7-week low of $849, May 1. Silver Spot is on the upswing as well, with a $17.21 close. The Mint has certainly done well with its American Silver Eagle sales, having sold more in the first half of 2008—over 10 million ounces—than in all of 2007, resulting in a continuation of the rationing program as well as receiving very strong premiums in the aftermarket.

A population report of all the coins recovered from the SS *New York* is now available from NGC and includes 297 Gold coins, both U.S. and foreign, with U.S. examples from all Southern Branch Mints represented. More of the 1844-O Half Eagles were recovered from the Gulf of Mexico than any other coin, with 18 total specimens raised. An impressive array of foreign material was recovered as well, from Columbia, Denmark, Chile, France, Great Britain, Germany, Italy, Mexico, the Netherlands and Spain.

The Summer FUN Show and auction by Heritage, June 26-29, will provide a much needed chance to seize additional rarities. Of course, the World's Fair of Money, beginning July 30, will provide ample opportunity for further acquisitions.

This Week's Market

CENTS THRU HALVES: The popularity of Lincoln Cents just can't be underestimated Once again, a trio of San Francisco entries from the mid-40s leads the way to higher levels. Jefferson Nickel rolls from the early 50s slide back as the popular 1950D lands at $400 Bid.

MERCURY DIMES: Active pockets of familiar buyers are still visible at current levels, especially for frosty examples with Fully Split Bands. True collector coins are another story. Buyers are on the lookout and raising the ante for most pearly-grey problem free Circs with special attention and bounty given to those early mintmarked scarcities.

WALKING LIBERTY HALVES: Early Walkers are still craving undivided attention as buyers remain in place for the 1916-1933 royalty in solid Gem. The only chink in this popular series' armor is seen in the fact that several, primarily from the short-set, have drifted back a measure in MS65.

DOLLARS: Slightly better dates and key entries in Choice and better are really getting into the swing of things this early summer. The heat is on as plus signs cascade over all Uncirculated grades. A tremendous surge in the DMPLs corner has taken no one by surprise as this crowd is beaming under a swarm of concerted pressure. While a couple minor downward adjustments are seen, the Peace Dollar contingent is steady at current Bid.

PROOF SETS AND MINT SETS: Most Proof Sets are still waiting for their ship to come in as a few from the 70s and 80s drift farther out to sea. Mint Sets avoid taking a dive, as most are buoyed by increased visible demand.

COMMEMORATIVES: Although this series is still in need of a jump start, the Classic Silver ensemble has encouraged a few more tire kickers to take a look. Yet for a series laden with low mintages and popular themes, the only ones spicing things up are the Booker T. Washington and Washington-Carver Sets in XF. Several specimens from the Classic Gold consortium are dropping off the bandwagon, including the 1903 Jefferson Dollar, sliding to $2,000 in MS65.

TYPE: Early Type is still toasting the town. Tough to find Braided Hair Half Cents are painting the numismatic municipality red, Full Red that is, as MS65 examples of these prized Coppers take a $500 advance and race to a $4,750 Bid. Early federal Silver hasn't let up either. A quick glance will reveal that the always in demand Large Eagle Half Dimes are taking flight. Choice through Gem specimens are soaring with MS65s perching at $33K. Proof Type is by no means sitting this one out as buyers are lined up for the majority at current levels. Indian Cents and Two Cent Pieces are rising above the crowd, showcasing gains in multiple grades.

GOLD: As the golden caravan continues to play musical chairs, this report settles on a slightly more positive refrain. With Gold Spot heading north again, the bullion sensitive Double Eagles have moved up accordingly. Type III $20 Libs in the almost unheard of MS67 are roaring to $52K, and $10 Indians in like grade are whooping it up to $33K. Discerning buyers are still targeting High Reliefs as MS63s top $21,200 in the face of several NGC examples currently available for below Bid.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

To learn more about the big difference CAC coins can make in your collection visit **CACcoin.com**.

SWELTERING SUMMER SCHEDULE
SHIPWRECK GOLD RARITIES WELCOME

The Market in Depth

Last week, we mentioned that NGC released their population report on the SS *New York*. For specialty dealers, the Southern Mint Gold examples recovered are certainly most welcome, and of course understanding what is soon to be available is quite important. Reportedly, these rarities will be sold in the Stack's pre-ANA auction in July. Understandably, considering the smaller number of recovered coins, advertising for the SS *New York* treasure has been far less than with the shipwrecks from the past. Brilliant marketing and promotion for the others was clearly focused on the general public, and in fact, many who bought examples of these recovered gems were not collectors at all, and never had been, but rather people whose imagination was captured by the detailed history surrounding these coins. Large quantities of shipwreck coins of the same denomination and date entered the market in our recent past with strong support and significant interest. Such was the case with the Double Eagles of the SS *Brother Jonathan* and its cache of 1865S examples, the SS *Central America* that poured out thousands of 1857S Twenties, and the SS *Republic*'s Double Eagles of 1861. While all three of the above shipwrecks featured Gold Twenties as their most popular recovered coin, the SS *New York* had none, for the simple reason that Double Eagles had yet to be minted in 1846 when the steamship sank.

West Palm Beach is currently hosting the summer FUN show, and dealers are on their toes as extreme volatility among the precious metals continues to affect their business decisions. Gold hasn't fully made up its mind about the $900 per ounce level, and is currently at $885. US Dollar weakness and fears of inflation are affecting Gold's value by the minute, and with so many factors at play, it's no wonder the metals have been on a bit of a roller-coaster lately. The next stop after Florida is Maryland, for the ANA show, July 31. In addition to the new material found at the FUN show, dealers will have another great opportunity to add to their inventories before the Baltimore extravaganza. Teletrade will hold a special Friday online auction, June 27, featuring PCGS early generation holders. This comes on the heels of their Green Holder Collection auction, June 1, which totaled over $1 million and managed a remarkable 100% sell-through.

For those non-dealers interested in attending the Baltimore PNG Day, July 29, the Professional Numismatists Guild announced its new policy which allows collectors to receive an invitation from a PNG dealer or from PNG headquarters upon request. Over 60 PNG member-dealers will have booths at this special gathering, allowing collectors to meet and buy from them in a more relaxed, less frantic setting. PNG Day is also viewing day for Richard Nachbar's Baltimore "Farewell Sale". This sealed Bid auction will offer a plethora of CAC Type and better date material, including both green and gold stickered slabs. All but a few of the 80 lots disclosed so far are graced with the now well-recognized oval seal of CAC approval.

This Week's Market

MERCURY DIMES: Although support is visible, it has drifted away from its previous plurality. Don't misunderstand: key dates and problem-free, Full Band examples are still being courted.

WALKING LIBERTY HALVES: Walkers' pride for the key early issues is still wearing strong, although several of the supporting faithfuls' Bids have disappeared. A minor pause in the short-set's driving resolve has also been detected, halting their momentum as a handful in Gem, including the key 1941S, is caught easing back to $975.

DOLLARS: Demand for most generics has stabilized, and Morgan magic is still with us as the preponderance of collectors' demand paces after the multitude of keys and semi keys. The popular inaugural Carson City installment of 1878 kicks things off with a $4,100 Bid in MS66. A trio from 1890 gets in on the act as the 1890 Philly, Carson City and New Orleans issues spice up the cartwheel canvass in Gem at $2,000, $4,950 and $1,480 respectively. Peace Dollars reveal commoners in MS65 drifting a trifle to $135 Bid. Nonetheless, the rest of the platoon is under watchful eye of supporting Bids as buyers continue to maneuver and attempt to flush out the bigger game trophies in this series.

PROOF SETS AND MINT SETS: A bit more positive action is perking up the Proof Set sector as the popular 1950 and 1951 issues attempt to get things rolling. Mint Sets maintain their cool flavor with only the 2002 entry inching up to $16.

COMMEMORATIVES: Nary a one from the Mint State Silver contingent has lost ground, and a handful of highly popular installments are on the receiving end of some much needed ego builders in the form of higher offers. The trade winds may be a-changing as the always in demand Hudson is rowing to $1,650 in Gem; the Lexington-Concord minuteman fires a double salvo in MS65 and MS66, and the proud and historic Spanish Trail in like grades gets back on track as buyers attempt to corral them at $1,700 and $1,900 respectively. Classic Gold confirms stability, although the 11-piece ensemble is still on a bit of a holding pattern with buyers.

TYPE: Copper Type delivers an impressive encore as Braided Hair Half Cents in MS65R charge to $5,100. These mid 19th century Coppers may still be a challenge to find though, as PCGS/NGC confirm 48 in MS65R and only one higher. Popular Draped Bust Small Eagle Dimes soar to $90K in Gem, and Draped Bust Small and Large Eagle Silver Dollars each advance. Proof Type confirms Liberty Seated Dimes are climbing as Stars and Legend variants reflect new demand with each escalating in PR63-PR65.

GOLD: Although the yellow metal has been up and down lately, there hasn't been much deviation in the weekly Gold Spot. Dealers are still proceeding on the cautious side when it comes to straight generics though, and careful assessment is also being utilized when near Gem or better Gold Type is being purchased. Enthusiastic demand and higher Bids are chasing after the scarcer $10 Indians as tougher MS64s are up to $1,875.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

WHOLESALE STRONG IN WEST PALM BEACH
OVER $25 MILLION GAVELED IN 5 FIVE DAYS

The Market in Depth

For the most part, dealers came away from the summer FUN show in West Palm Beach very pleased. Metal prices, of course, have a lot to do with the health of the coin market, and both Gold and Silver are on track again after a recent dip, with the yellow metal now back over $942, and Silver Spot at a strong $18.20 per ounce. This 7% jump from last week couldn't have come at a better time. Confident collectors are aggressively buying rare and interesting coins, and this strength was clearly seen in Florida. Dealers agree that the buying side of the market remains extremely challenging because there just isn't enough material available to satisfy the current, enormous demand. Significant wholesale trading was taking place on the bourse in the Sunshine State, and one dealer said he had an outstanding show, generating more than $2 million in sales, primarily wholesale. He was able to quickly sell a group of Charlotte and Dahlonega Half Eagles ranging in grade from VF thru MS62. One highlight of this sale was the MS62 1852D $5 that changed hands for $15,000. In the last year, only three others have sold at retail auction ranging in price from $10,925 to $11,500. Another robust area at the show was Type, especially high-end, early Type which continued to attract numerous buyers. Key date circulated Morgan Dollars, like the 1889CC, 1893S and 1894 were in exceptional demand. Mint State material was certainly popular as well, with dealers reporting that Morgan and Peace Dollars grading MS63 and MS64, in the $300-$2,000 range, were white hot. Dates including the 1885S, 1886S, 1888S, 1892, 1892O and 1894 are desperately needed to fill want lists.

Those not at the Floridian shindig were certainly busy with other numismatic activities as evidenced by Teletrade's internet auction, June 27. This powerhouse sale brought in just over $1.2 million, and like their previous million dollar plus sale earlier this month, featured over 60 coins in old green holders. Some highlights include: an OGH PCGS MS62 1813 $5 Capped Bust at $17,937; a Pewter 1776 $1 Continental Currency PCGS AU55 CAC for $44,800; and an NGC, CAC stickered, 1895 Double Eagle in PR65UC, selling for $117,617. David Lawrence Rare Coins was busy as well last week, conducting an internet sale June 26 that included 100 new DGS slabbed coins. The highlight piece, an 1836 Gobrecht Dollar, graded DGS PR45, didn't sell, and the auction realized $73,000. The Summer FUN Heritage auction realized $12 million, June 26-29. We have listed a few of the many highlights.

Heritage			Price Realized
1871	Indian Cent	PCGS MS66R	$51,750
1909VDB	Lincoln Cent	NGC PR66RB	$63,250
1863	Liberty Seated Dollar, Cameo	NGC PR67	$74,750
1796	$2.50 Capped Bust, No Stars	PCGS VF35	$83,375
1880	$4 Flowing Hair Stella	PCGS PR64	$431,250
1832	$5 Capped Bust, 13 Stars	PCGS MS63	$132,250
1801	$10 Capped Bust	PCGS MS64	$126,500
1803	$10 Capped Bust, Large Stars	NGC MS62	$172,500
1885	$20 Liberty	NGC MS62★	$103,500

When one takes into account the Stack's auction last week, which hammered $11.5 million, the total prices realized since June 25, including normally scheduled internet auctions, exceed $25 million. This is particularly significant when considering the fact that the summer months usually represent a slowdown in the market. Many dealers take this time to rest and go on vacation, but here we have huge auction numbers all the same.

This Week's Market

CENTS THRU HALVES: To no one's real surprise, several of the popular Lincoln Cent installments from the 40s are on the move again. With Silver Spot escalating, all the bullion susceptible are moving up a notch.

MERCURY DIMES: Although nary a Bidding rocket has been lit, supporting Bids peppered throughout are keeping the burners warm. Demand for high quality Circ keys and Full Banded wonder coins in frosty white are still in vogue with mainstream collectors.

WALKING LIBERTY HALVES: Early Walkers are favoring us with substantial motivation and snap. However, the short-set has lost a bit more of its sparkle as the quarterback to the ensemble, 1941S, crackles under pressure easing back to $940 a pop in MS65.

DOLLARS: The all-American favorite salutes the collecting fraternity with a gigantic display of fireworks. Nearly the entire Morgan series is feeling the heat, pounding ahead with advances primarily in Very Choice and better. Better dates and keys are delivering the biggest punch as the king of Carson City, 1889, claims $45,500 in MS64. The last of the truly tough New Orleans installments, 1897, muscles up in 4 columns as full MS65s take a spirited $45,500 too. Peace Dollars are also rabble-rousers, making more noise than a Piccolo Pete. The whole clan is sending up a sparkling display as the keys, 1925S and 1928S in MS65, rake in $21,800 and $20,000 respectively.

PROOF SETS AND MINT SETS: The fuse continues to burn on the popular 1950 and 1951 Proof Sets, along with the often watched 1961-63 issues. Mint Sets maintain a positive flavor for the earlier entries and are waiting for the influence to spread throughout the series.

COMMEMORATIVES: Classic Silver Commems are not all duds, and none are dissenting this report. In fact, both versions of the 1921 Alabama are making noise with higher offers. While the scarcer 2X2 variant marches to $3,300 in MS66, the popular California Jubilee stakes claim at $1,200 in the same grade. Classic Gold maintains a tight rein as buyers look to make some hay at these assigned values.

TYPE: This market segment is hotter than a Roman Candle! All the recent advances are marked by a standing tribute from buyers craving any and all quality early Type. Dealers are shooting off skyrockets in hopes of coaxing those late 18th and early 19th century classic Americana into their folds. Proof Type mirrors this sentiment as virtually all Liberty Seated denominations continue to rise in the ranks.

GOLD: As we celebrate the birth of our nation, Gold provides a fitting grand finale. Spot is soaring over $942 per ounce, and both bullion sensitive and better Gold Type are dazzling us with a sparkling shower of advances. $20 Saints top $1,535 in Gem while the next to impossible Type III $20 Libs capture $52,500 in MS67.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices [illegible]. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem full steps" rolls (when available) bring higher prices. In the Mercury [illegible] bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "put together" bring lower prices. [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker [illegible]

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVI No. 28 July 11, 2008 *. . .a Friday morning report on the Coin Market*

METAL VOLATILITY DOMINATES FIRST HALF OF '08
PQ COINS CONTINUE CLIMB

The Market in Depth

Extreme volatility in precious metals has become commonplace this year, with huge per ounce price swings occurring regularly. Last week's high Gold Spot of $944.80 has come down to today's $927.30 per ounce settle. Two weeks ago, we were in the $880s, and since the beginning of the year, Spot has gone from the low $800s in January to a historic intraday trading high of $1,034 in late March. So who knows what's next? Obviously, just about anything can happen with world markets in play 24 hours a day, and any related economic story can and will affect the actions of the metals. For the most part, Silver, not surprisingly, has followed this same roller-coaster ride all year.

Unlike the precious metals, prices for rare coins have been steadily increasing for years, and most have continued to do so in 2008. Coins that are solid for the grade are hotly contested at today's public auctions and on the bourse. Collectors are pining for the best of the best, and the Schaumburg, Illinois MidAmerica Coin Expo is the next stop, and last major opportunity to pick up some PQ material before the Baltimore ANA at the end of the month. Today's demand for well-struck, original rarities is such that collectors are more than willing to spend whatever it takes for ownership, especially if the slab is graced with the little green bean. Indeed, the CAC sticker is a blessing to the newbie as it provides additional assurance of a quality product. Only the most experienced numismatists could make such distinctions until CAC came along, so the advantage for those recently initiated is tremendous.

Common dates through key dates which stand out from the pack, either from low population status, exceptional strike, pleasant toning or any quality separating the coin from the rest, are in huge demand. As collectors continue to increase their knowledge, and have access to more information and more services, it makes sense that the cream of the crop is what they'll want, while offloading the common material will likely become more difficult over the years. Straining the available supply of premium quality material even further, successful buyers have been putting their prized jewels away indefinitely. This should add more fuel to an already highly combustible market, possibly resulting in much higher prices with each passing transaction. Such rarities will be targeted at the Stack's Vincent Collection, July 10 sale. Some of the highlights graded by NGC include an MS67 1840 Half Dime, No Drapery, CAC; an MS67 1921 Mercury Dime; a 1910 Barber Quarter in PR68★ Cam; and an 1880 PR68Cam Morgan Dollar; PCGS/CAC examples include an 1802/1 Half Eagle, graded MS62; and an MS63 1799 Eagle.

After years of applying lower buyer's fees, Teletrade has finally joined the 15% club. One of the last holdouts in the group of major players to apply less juice, the growing internet auction site will offer a bit of a consolation to their customers with their new "Gold Rewards" program. This frequent buyer incentive program provides points earned on purchases that eventually accumulate towards free gifts, discounts and other perks. Teletrade is celebrating their most successful month in the company's 22-year history as June resulted in over $4.75 million in auction sales.

This Week's Market

MERCURY DIMES: Ms. Winged Liberty's pair of popular overdates is screaming ahead under the impetus of powerful Bid advances. Chasing them in Mint State columns across-the-board, the 1942/1 charges to $13,500 in full MS65, and the Full Banded version tops $29K. If this weren't exciting enough, the Denver counterpart is roaring ahead in MS65, and Full Banded Gems rock on over a $5K advance to $20K. The 1942/1, grading MS65FB, has a minuscule PCGS/NGC Pop of 11, and the Denver version a modest 24.

WALKING LIBERTY HALVES: Walkers seem to be stuck on the same tune. While the Bidders' refrain is effectively harmonizing for the elite early entries and keys, the short-set is a bit flat, with a trio, including the lead 1941S, easing back to $915 in MS65.

DOLLARS: A gigantic wave of higher Bids rolls ashore, zeroing in on the majority of the scarcer clan in Very Choice and better. Enjoying this phenomenal showing of support, last report's star, 1897O, is back at it, tacking on another $4,500 of Bidding might as MS65s catapult to $50K. DMPLs are also blinding us with a dazzling array on the upswing. Peace Dollars certainly aren't quiet either, mounting a concerted counterattack as nearly all grading MS64-MS66 are muscling up, with the key 1928 topping $16,200 in MS66.

PROOF SETS AND MINT SETS: "Summer doldrums" seems to have become a part of the nomenclature for Proof Sets as a host of lower priced issues reveals minor rollbacks. Attempting to ignite some excitement, the 1950-51 duo are in demand again, inching higher. Mint Sets aren't quite as dreary as the 2002 entry claims $17.

COMMEMORATIVES: Revitalizing the Classic Silver Commems façade is still underway as a few enthusiastic buyers lend a hand with the restoration via higher Bids. As they raise the ante, the Civil War themed Antietam rallies the troops to $925 in MS66. The ongoing popularity with the Lexington-Concord continues to muster supporters to the cause. A double-barrel Bid targets MS65 and MS66s at $510 and $1,250 respectively. Classic Gold maintains moderate demand although a pair bearing the CAC insignia have drifted back in the ranks after a less than inspirational retail auction appearance.

TYPE: Type is the slice of Americana that everyone is craving. Hungry buyers are hot on the trail of 1873-1874 Liberty Seated Half Dollars with Arrows as tough full Gems race to $12,500. Both versions of big sister Liberty Seated Dollars are on the rise across the grading spectrum. Sans Mottos claim $44K in MS65 and with Motto counterparts top a solid $52K in the same column. Trade Dollars get in the mix with a $14K shot directed at MS65s. Proof Type reflects deep respect as nearly all of the players have support. Liberty Seated Dollars with Motto are in a dual role, having taken a shine with buyers as PR63-PR65s escalate.

GOLD: Although Gold Spot has surrendered $15 since our last outing, her presence over the $920 level has more supporters coming forward. Higher grade, problem-free Gold Type is the obvious benefactor getting a further vote of confidence. $20 Saints top $1,560 in Gem, and the popular $10 Libs and Indians duke it out as MS65s each climb to $5,400.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** 'raw' coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

To learn more about the big difference CAC coins can make in your collection visit **CACcoin.com**.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVI No. 29 **July 18, 2008** *. . .a Friday morning report on the Coin Market*

BIG-TICKET COINS HOT AT MIDAMERICA
EXPECTATIONS GROW AS ANA APPROACHES

The Market in Depth

The MidAmerica Coin Expo in Schaumburg, July 10-13, proved to be a success. In fact, many dealers reported being pleasantly surprised at how much business occurred. Big-ticket coins were selling well, and at least one dealer was fortunate enough to generate $1 million in retail sales, consisting of many five and six-figure specimens. While retail business was certainly taking place, wholesale activity dominated the show, and those dealers holding inventories of rare, original material had little difficulty finding buyers and completing transactions. Fresh, premium quality coins, especially Type, was in high demand, while ugly and over graded slabs were simply not selling. Such fastidiousness from collectors, combined with high-volume demand, creates the problem of a severe deficit of high quality material, and once again, the report from Chicago is that more PQ coins are needed in this market. Several such examples sold at the Vincent Collection auction by Stack's, July 10, which brought $1.45 million. We have listed a few highlights, many of which bear what has been accepted as an assurance of quality, the CAC sticker.

As the rare coin market continues to buck the overall economic trend, and in fact may be benefiting from the sluggishness of late, Gold has spiked again. Pressure forcing the Federal Reserve to seize control of IndyMac and set up special support systems for Fannie Mae and Freddie Mac, combined with the stock market being in a tail spin, has left investors nervous and running to Gold and Silver, and of course rare coins as well. This fear is not unfounded, as approximately ten thousand IndyMac customers have over the FDIC coverage of $100,000 deposited, which accounts for potentially $1 billion in uninsured funds. Gold Spot has now surpassed $970 per ounce, and Silver is over $19. Gold and Silver haven't been this strong since mid March. The timing is right for the US Mint to release the fractional Gold Buffalos July 22. Mintage and order restrictions have yet to be announced for either the Proof or Uncirculated 4x9 Gold fractionals.

Dealers believe that many of the coins they still need will be available in Baltimore at the American Numismatic Association's World's Fair of Money, July 30-August 3. The Smithsonian National Museum of American History will display 21 Proof rarities, including the 1860 Double Eagle pattern with the Paquet reverse. Another Paquet reverse, this one owned by Classic Coin Company, and one of only two known 1861 versions, will be featured at the ANA as well. The US Mint adds to the mix with their unveiling of details surrounding the much anticipated 2009 Ultra High Relief Double Eagle. Considering the current strength of the rare coin market, powerful precious metal Spots, and the long, successful track record of ANA shows, this year's fair has much potential to set a higher bar for the numismatic world.

This Week's Market

CENTS THRU HALVES: Lincolns from the 1940s remain hot as a trio of San Francisco issues rolls higher. Courtesy of a surging Silver Spot, all of the bullion sensitive denominations rally up. State Quarters finds both of the Georgia "Peach" rolls ripening to a $29 Bid taking the bragging rights for the series.

MERCURY DIMES: Admirers retain renewed Bidding might as the in demand 1942/41D rallies again. A very strong reprise is driving this popular Mercury higher as the Full Banded MS64 examples roll to $9,500 and MS65FB pieces romp on a 10% drive to $22K.

WALKING LIBERTY HALVES: Walkers, particularly original, well-struck early keys and rarities, have a waiting, paying audience of enthusiastic patrons. However, a minor rebellion is continuing to chase down the extended short-set again as a rogue pair in Very Choice and Gem each drift back a tad.

DOLLARS: The extra incentive from Silver Spot spiking is definitely reeling in many more enthusiasts from the sidelines. Whether for common MS65 examples or better dates and keys, the most recent Bidding blitz demonstrates highly visible buyers at designated levels. Adding to the cartwheel's glory, the premier "CC" installment of 1878 takes a $1,500 Bid in Gem and tough to find MS66 jewels strike to $4,400. The Peace Dollar bandwagon is still rolling along too, although a minor rift in the ranks reveals commoners in MS65 have eased back to $130.

PROOF SETS AND MINT SETS: Proof Sets are looking to capitalize on the recent increases pushing the 1950-1952 issues higher again. Mint Sets reveal a similar scenario as only the 1976S 3-piece Bicentennial Set moves up a notch to $10.25 Bid.

COMMEMORATIVES: Classic Silver continues to taunt us with promises of busting out of the doldrums. Attempting to summon up some positive trade winds, the Antietam takes the offense again as MS65 examples battle to $780, and the popular 1935 Hudson is docking upstream with a $920 Bid in Choice. Classic Gold appears to have gotten a boost as a quartet takes center stage led by the 1903 Jefferson in Gem thru MS66, the latter reclaiming lost territory at $2,800.

TYPE: Rivaling the season, this market segment is undeniably hot. Three Cent Silvers stoke the fire as all three types of the diminutive Trimes are chiming in with gains. Large Capped Bust Dimes rally in MS63-MS65. Big Brother Capped Bust Quarters are also getting a charge as both versions roll higher in MS63-MS64. Liberty Seated Dollars are standing tall in the saddle again. Sans Mottos claim $46K in MS65 and with Mottos rocket to $55K in the same column. Proof Type is also dazzling us with a summer shower of advances with Three Cent, Shield and Liberty Nickels piling up moderate action across-the-board. Proof Silver is also hot with Dimes thru Dollars increasing.

GOLD: As the golden express roars ahead by $45 since or last report, those feeling the need for the yellow metal are coming back onboard. The more bullion related are having a field day as a shower of advances cascades below. Perhaps apropos, better Gold Type is also muscling ahead. Type II Gold Dollars reach $35K in MS65 while the very tough to find Type II $20 Libs roar to $33K in MS64. $10 Indians are also whooping up some solid action on the way to $35K for the elite MS67 tribe. The proud $5 Indians are the Big Chief as extraordinary MS67s ride to $62K.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

In addition to its world-class conservation service, NCS provides comprehensive certification services for coins with irreversible detrimental surface conditions (commonly known as "problem" or "no-grade" coins). All coins encapsulated by NCS are authenticated and guaranteed to be genuine. At your request, coins can be described on the holder as Genuine, or given a Detail's grade.

Any item submitted for NCS encapsulation that is suitable for non-problem coin grading will be transferred to NGC. Extensive variety and error attribution services are also available.

For more information on NCS Certification and Encapsulation, please visit www.NCScoin.com.

NCS coins are approved to be listed as certified on eBay.

The Market in Depth

Dealers are concluding their vacations and gearing up for the big show in Baltimore, July 30 thru August 3. Many are already in route to Maryland to participate in the pre-ANA auctions and PNG Day. Expectations continue to grow as the need for fresh material and premium quality rare coins hasn't diminished whatsoever. Anticipation of capturing several rare jewels in the next couple of weeks is growing by the minute. Largely, market strength has endured because collectors' needs have yet to be fulfilled. For some, the satisfaction of completing a set, or at least adding to or improving it, is the driving motivation keeping them and their dealers busy. For others, it's more of a financial issue. These potential buyers are in desperate need of a home for their holdings that have been decimated in the stock and real estate markets. Meanwhile, the precious metals and rare coin sector offer some diversification that may soften the blow of poor performances sustained from other investments. Savvy collector/investors understand that successful choices in numismatic purchasing require the assistance, wisdom and experience of dealers with exceptional knowledge in select areas of the market. Formulating a plan and clearly identifying goals before plunging head first into a deal is vital. Collectors are insisting on attractive coins that are above average for the grade, instead of settling for something of lower quality just to fill an empty space. Conditional rarities with significant upside potential and low downside risk meet the needs of any client quite well, as do specimens of adequate rarity exhibiting jaw dropping eye appeal.

Today, we continue to see dealers targeting proven rarities and key dates from the Early coinage and Type categories. Such material has maintained exceptionally high status on the list of coins to be vigorously pursued. It should come as no surprise since these are the rarities that have passed the test of time, earning solid support from dealers and knowledgeable collectors on the demand side of the equation. The supply side is also favorable as it is unlikely for an undiscovered hoard to surface, considering the advanced age of the hobby. Known examples are often locked away in collections and thus taken off the market indefinitely. Those few that manage to become available are hotly pursued at auction with record prices usually the outcome.

For collectors who can't afford or are unwilling to spend well into the six-figures for a coin, perhaps taking advantage of the PCGS Genuine service would work for them. There is indeed a market for this material as the G-Slabs are now readily available after the service was officially initiated less than two months ago. Of course, considering the $100 fee, the ideal candidates would be those at the top tier, like damaged Stellas, poorly cleaned High Reliefs, scrubbed 1916 Standing Liberty Quarters, tooled early Silver coinage, etc. Furthermore, key date coins that have been regularly counterfeited would now become salable with this service of authentication. PCGS may see an increase in completed Registry Sets since these slabs can now be included for a fraction of the cost of gradable coins.

This Week's Market

MERCURY DIMES: Certainly not gloating over recent attention, Ms. Winged Liberty has had quite a bit of excitement stirring. Not only is the key 1942/1 overdate duo being hunted feverishly, but pleasing original Circ semi-keys and keys are also desired in volume at elevated levels.

WALKING LIBERTY HALVES: A few more Walkers from the extended short-set are caught slacking off behind the key early pacesetters. Elusive and strongly contested early rarities are prompting attention and keeping things in control in Choice and better. And it doesn't stop there, as pleasing high-end Circs of that early persuasion have been heating up, with buyers attempting to fill want lists as well as inventories prior to the big show.

DOLLARS: What can you say when the floodgates open? Take a look as a deluge of high rising Bids is rushing ashore for the entire Morgan contingent grading Choice and better. Slightly better dates, condition rarities and keys—the whole enchilada—are on the receiving end of a blast just before the ANA. In hopes to free up the ever desirable cartwheels, enormous Bids are chasing down the king 1893S in MS60-MS65, the latter crashing in with a $590K Bid. The ultra tough to locate in high grade 1897O is resolutely on its way to a solid $56K offer in MS65, and the pride of the Philly deliveries, the exalted 1901, powers to $250K, also in full Gem. Desirable DMPLs dash ahead under their own downpour. Peace Dollars are also under pressure as a handful of scarcer Gems increase.

PROOF SETS AND MINT SETS: This segment is still looking for some inspiration from the season to get a fire started. It may be working. A victory can be claimed on both fronts as only one dissenter is located amongst the ranks. The 1960 Small Date and 2007 Proof Sets are each inching up. Mint Sets add some positive flavor to the brew too, as 1976S 3-piece and 2002 Sets notch up.

COMMEMORATIVES: Classic Silver Commems remain an enigma. Just when it appears this otherwise popular slice of Americana is going to break out of the slump, a few more slip back through indifference. Attempting to get a rally started, the 1925 Lexington-Concord has the spirit as MS65 examples claim $525 and MS66 specimens take no prisoners on the way to $1,285. The 11-piece Classic Gold ensemble reveals less ambiguity as recent accelerators have viable supporters, and we only observe the 1904 Lewis & Clark getting a bit lost with buyers as MS64 representatives get sidetracked to $3,450.

TYPE: This raging market segment is a whirlwind, barreling ahead as a bevy of aggressive buyers are pulling out all of the stops. Every major piece of early federal Silver Type is feeling that oppressive heat. Circs through MS65 wonder coins continue to fuel off this massive Bidding barrage. Proof Type picks up the baton too, as all Silver denominations are running hard before the ANA finish line.

GOLD: Although the yellow metal has been acting the part of a precious yo-yo of late, goldbugs are feeling a bit more confident on its upswing potential. Calculating buyers are beginning to set chase in earnest as the plus signs are quite dense for a variety of Gold Type in MS63 and better. $5 Indians stake claim at $17,300 in MS65, while With Motto and Indian Eagles each fight over bragging rights at $5,500 in Gem.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than $930 over First Class postage stamps!). Need just one state or region? Need a trial sample? Contact us for details!

$1.38 MILLION HAMMERED FOR DRAPED BUST HALF
PRE-ANA AUCTIONS CLAIM OVER $26 MILLION

The Market in Depth

Baltimore's Pre-ANA auctions have yielded some impressive results. Stack's raked in over $20 million, as their sale included numerous six-figure rarities. The clear standout specimen hammered for well into seven-figure territory: a 1797 Draped Bust, Small Eagle Half Dollar, graded NGC MS66. Applause and cheers filled the room in response to the remarkable $1.38 million winning Bid. It has become apparent that it takes huge numbers such as this in today's incredibly robust market to get a reaction anymore. Bowers & Merena hammered down $4.7 million, while Superior brought in $1.2 million. Quality and rarity have been of extreme importance in 2008, and that trend continued at PNG Day, where eye appeal and originality were demanded before shelling out the big bucks. This year, the general public was encouraged to attend, and it will be interesting to discover what impact, if any, this policy change had. Early on, those present were excited and upbeat. This is all leading up to the main event, which of course is the ANA World's Fair of Money, July 30 thru August 3.

Fastidious dealers and collectors are sure to extend their unrelenting demand for quality throughout the ANA show. Dealers we spoke with in Baltimore confirm the recent trends that Gem quality Mint State and Proof Type are a huge target. Some believe Proof Type has been lagging the market and is now beginning to make its move. Common dates found in the Proof Liberty Nickel and Barber coinage series will likely be scooped up as the prices are still considered very reasonable. Strength and extremely high interest in pedigree, provenance and coins with a story is also quite evident today. An example of this can be seen in the prices realized for the S.S. *New York* treasures.

A Copper 1943S Lincoln Cent recently purchased by Rare Coin Wholesalers of Dana Point, CA, along with its related correspondence, for $72,500 will be displayed at the ANA. The US Mint will showcase the Saint-Gaudens Ultra High Relief Double Eagle, which will be available to the public in early 2009. The Smithsonian will be at the fair as well, showing off an 1860 Double Eagle Proof pattern with the Paquet reverse, along with many other rare Proofs. Richard Nachbar will conduct his farewell sale in Baltimore consisting of 122 coins, 100 of which feature the CAC seal of approval, including 11 of the coveted gold stickered specimens.

This Week's Market

CENTS THRU HALVES: Early Lincolns maintain a torrid pace as several more compatriots get a solid boost led by the $475 Bid for the 1942S. The usual bullion sensitive issues have eased back as the Silver shuttle has been sidetracked. State Quarters find Georgia on the mind of many buyers as both Unc rolls top $34.50, nearly a 20% jump from our last report.

MERCURY DIMES: Supporters are out in force as are numerous value seekers, both factions intent on filling delinquent want lists. Frosty white, Full Banded Gems are desired in volume. Fresh demand has also pushed the ante up for several of the key early dates.

WALKING LIBERTY HALVES: Walkers remain a tough act to book. As the popular inaugural 1916 issue romps to $1,500 in MS65, we observe the cornerstone of the short-set, the 1941S, also making a move in like grade as a higher $920 offer will attempt to flag down a few.

DOLLARS: Common Morgans in MS65 inch higher to $141 Bid. If the proper cartwheel materializes, Morgans are still ready to take a big bite out of buyers' budgets. Case in point, take a gander at the powerhouse Bid tackling one of the conditional rarities as the 1883 issue from San Francisco pounds ahead to $38K in MS65. This frequently well-struck issue usually has more than its fair share of bag marks resulting in a modest PCGS/NGC community of 31 and only 6 higher. Peace Dollars continue to hold down the fort as solid demand is straddling the entire series.

PROOF SETS AND MINT SETS: Proof Sets are feeling a little retro-action as the popular baby-boomer issues of 1950-52 are bopping in at elevated levels. Mint Sets follow up with no slackers and a bit more visible support.

COMMEMORATIVES: Momentum is still building for the Classic Silver Commems' cause. Only one dissenter and a measure of firming support along with increased demand is seen for the Civil War themed Antietam and Gettysburg. Gold Commems strengthen with moderate resolve as none have lost their grip. 1916 McKinley Gold Dollars are higher in MS65 and MS66, Bid at $1,540 and $2,320 respectively.

TYPE: This is the hot ticket in Baltimore, and just about everywhere else. Buyers are screening all venues hoping to latch onto top tier offerings. Scarce and popular 20¢ pieces are thriving in MS65, topping $5,200, while their Gem Proof counterparts rally to $9,200. Just about all Liberty Seated denominations continue to shine as No Motto Quarters make a statement claiming $5,200 in PR65 and With Motto Dollars also increase in select grades.

GOLD: Although the yellow metal has had a falling out since our last report, those better, problem-free full MS65 examples are feeling no pain with buyers. A wealth of moderate advances still have visitation as Gem Type I Dollars top $5,050, and the tag team of Lib With Motto and Indian Eagles wrestle to a draw at $5,550.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Baltimore Extravaganza Begins
Metals Melt Under Mid-Summer's Heat

Just about every knowledgeable collector worth their salt aspires to be on the east coast in particular Baltimore. The Old Line State is thick with excitement and is bubbling over as the big annual 117th ANA World's Fair of Money is less than a week away. The numismatic world's Christmas in July has many collectives finalizing with hats and either taking them along or communicating their needs to trusted mentors. Many veteran buyers have already evaluated their needs in advance having scoped out that substantial pre-show airing of auctions. Some anxious dealers already setting up a temporary headquarters in Baltimore have confided to us that there is some apprehension exverting them into this show. Like no other event in their recent collective memories, this can truly be a make or break scenario. It may turn out to be the most successful show of the year for many, so the pressure is on to locate and purchase fresh slabbed material to satisfy not only the excited collectors but to infuse new blood into those anemic inventories.

Certainly for many within the affluent collector click, money will not really be a concern. What is of real concern is quality, rarity and pedigree of those rare certified treasures. Key dates from virtually every series as well as the prime numismatic real estate encompassing all Flowing, Draped and Capped Busts, will be hunted down like escapees from Devil's Island. Six-figure and better numismatic icons will likely trade rather freely at this gala. For the novice, the advent of the CAC product will make their hunt perhaps a bit more costly when they fetch onto that stickered slab, yet the satisfaction that this coin is at the very least solid for the grade will let the new hobbyist sleep soundly when they get home. Buyers are also keeping faithful watch on the metals arena as extreme volatility has seen Gold spike to over $975 per ounce last week only to see it thunder on July 24 to just over $920. While dated and early Gold Type is not dramatically influenced by these swings generic $20 Saints and Type III Libs are

A quick perusal at this week's market column for the Classic Silver Comments will reveal that only a handful of mixed offerings are casting back this being the result of lower Asks and auction results. The only double-digit loser is the tough 1939 PDS Arkansas Set finding NGC MS65 sets in the hole by 15%. On the flipside, the ever-popular 1925 Lexington-Concord is called to arms as MS65 66 examples set their sight-on sight-unseen Bids as high as $430 and $1,040 respectively. Although Spot Silver has dipped below $17.25, the appeal and demand for Morgan and Peace Dollars goes unchallenged. Only a few from each series traded for a tad below Blind Bid and most of those have highly visible acquaintances ready to take all they can at current levels. A few generic Morgans are actually moving up in MS65 to $131. Type, both Mint State and Proof, is still hot and no one is giving up any bargains here. Although Gold Type is beset with a few minor setbacks, all three Gold Dollar Types are apparently mocking the recent Gold Spot bark step. Type I NGC MS65 examples top $3,600 Bid and tough Type II specimens get some pop as those graded PCGS MS64 roll to $11K sight-unseen. The lone auction outside of Baltimore is in the books as the July 22 Spunks Sans the offering in New York realized a tidy $440,000. The marvelous A session Heritage Signature Sale and Platinum Night gets underway on July 30. We have listed several of the multitude of highlights

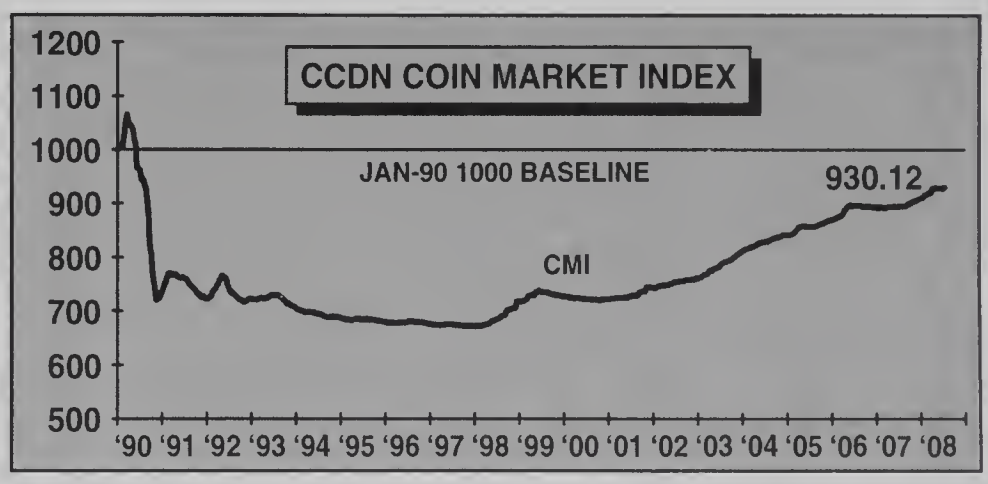
Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The ***Certified Coin Dealer newsletter ("Bluesheet")***, published by the Coin Dealer Newsletter (est. 1963), is the **only** price guide available listing the wholesale Bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, ANACS, PCI, ICG, SEGS and other independent grading services. Published weekly, the ***"Bluesheet"*** reports the highest known sight-unseen Bids on actively traded certified coins in the standard grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the leading services. Bids for PCGS and NGC are reported every week; Bids for other services are updated monthly. And once each month the **CCDn** also contains Market listings - at no extra charge!

Over the past twenty years, the certified market has been very active. The volatility that characterized the sight-unseen market has been replaced by more stable price movements, attracting a new generation of collectors. As our **CCDn CMI** (a weekly ***Bluesheet*** feature) illustrates, the overall market is **moving higher**. In addition to pricing changes in the market, Bid levels may differ considerably from one service to another.



The ***Bluesheet*** reports dealer Bid levels for sight-unseen coins. Dealers may pay even more depending upon their needs, but remember, pricing changes are an enduring characteristic of the coin market. Bids can increase or decrease dramatically; without current market information, making informed buying or selling decisions is impossible. You need the ***Bluesheet*** now!

SUMMER ANA — ONE FOR THE AGES
MARYLAND AUCTION EXCEEDS $41 MILLION

The Market in Depth

This year's ANA was phenomenally successful. A massive appetite for quality was obvious as numerous six-figure coins sold on the bourse. Quality being the key, only those well-struck jewels with super eye appeal were trading readily, while the lackluster and problem slabs remained languishing in their coffins. Big money was obviously available for the right material, and there were plenty of buyers at the show representing sideline players looking for the best of the best, and picking it up at huge prices. As has been the case lately, dated Gold, Mint State and Proof Type, especially Bust and Seated coinage, was most in demand, and this made for a show that was the best many in attendance have ever experienced. Of course early federal coinage and better dates were also targeted in Baltimore, and these coins have been displaying plentiful plus signs throughout the year. Additionally, many at the show were aggressively seeking specimens encapsulated in the old green and fatty holders, as their popularity has continued to flourish over the last year or so. DMPL Dollars made quite a showing at the ANA as well, with a collection sold by Heritage achieving remarkable prices. This strength may well be, at least in part, an example of passionate collectors competing for set registry bragging rights. Generic Gold was a bit soft, though, which is no surprise considering the slight weakness in metals lately. Gold Spot has fallen to $879, and Silver has gone down as well with a Spot of $16.54. Platinum has been hit hardest, having dropped over 20% in three weeks, and closing at $1,585. This may be in response to the federal funds rate remaining at 2%, as the Fed announced Tuesday, August 5. Even with this softening, dealers are paying premiums for those Gold generics that are one step up from the most common material, like non '09D $5 Indians, non '24 $20 Saint-Gaudens, and non '04 $20 Libs. In fact, premiums for Gold in virtually all flavors have gone up, from Krugerrands to Modern Proof Eagles.

While the pre-ANA auctions set quite a pace in Maryland, exceeding $26 million, Heritage alone brought in over an astonishing $41 million. We have listed several highlights from this NGC heavy sale. Incredible interest and spirited Bidding action took place with the sale of amazing gems from both the Ed Price and Rollins collections. Richard Nachbar's farewell sale also did exceptionally well. His multiple CAC Gold specimens were quite a hit, and many dealers commented on the impressive quality of his offerings. The feasting over the last few weeks may have at least temporarily satisfied the appetites in the market, and there could be a resulting lull as recent purchases are digested.

This Week's Market

MERCURY DIMES: Mercs are not a house of fire, yet collectors are still out in force keeping things warm. Fanning the coals, numerous Circ semi-keys are on the rise as buyers are attempting to flag down all the problem-free examples that come their way. Dealers are also out prowling for volumes of those desirable frosty Full-Banded Gems at current Bid.

WALKING LIBERTY HALVES: Walkers remain a big hit with collectors as evidenced by the great demand at the just concluded summer ANA. Buyers and hordes of hobbyists are still canvassing for pure white Gems to augment or complete the popular short-set. Acknowledging the call, the key to the 20-piece conclave, 1941S, moves higher to claim a $930 Bid.

DOLLARS: Morgan's following is unyielding as the semi-key 1900S tops $1,350 in Gem, and the in demand Carson City key from 1879 drives to an inspiring $26,500 offer, also in MS65. DMPLs cater to a bevy of buyers' advances this week, and all the other players maintain an open call at or near present levels. Finding top-notch Peace Dollars is proving to be an ongoing challenge as this abbreviated series is making another concerted run in MS64 and higher. The majority of advances are servicing the MS65 players as no fewer than a dozen are feeling a fiery Bidding blitz. Leading the pack is the key 1925S now boasting a $22,500 Bid in MS65.

PROOF SETS AND MINT SETS: While 1951 Proof Sets advance to $525 Bid, several later entries are easing back. Mint Sets show a wealth of modern issues having fallen out of favor with buyers.

COMMEMORATIVES: Handfuls of higher Bids are targeting several of the popular entries in Gem and better. Albany, Delaware, Wisconsin and York County Maine issues are all muscling up in a pair of Mint State columns. Classic Gold Commems maintain vigil at present levels with no deserters. Modern Gold Commems are lower currently due to a dropping Spot, which is down $85 from our last report of this market segment. Platinum suffered even greater declines, losing $267 an ounce in the same period.

TYPE: The heat hasn't let up in this corner one iota. Even after the recent onslaught of advances and stampeding the ANA bourse and auctions, not anywhere near enough material has been sprung free to satisfy buyers' want lists. While dealers are back in the trenches attempting to get their houses in order, a host of supporting offers remains in force, while a rocketing $47,500 Bid will attempt to coax a few MS64 No Drapery Liberty Seated Halves out in the open.

GOLD: Further gyrations within the Spot market have seen some goldbugs duck for cover. However, the strength of high-grade, problem-free Gold Type is sending a positive message. This is especially true for those hard to find Gem caliber coins as they continue to show their moxie. Take a look in the MS65 Column: Type I Dollars top $5,100; $2½ Indians are sitting higher on the totem pole at $4,100, $5 Indians top $17,500, and the $10 Libs and Indians continue to jockey for position, each charging ahead to $5,600.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green or gold label PCI Bids are for slabbed coins only. INS bids are for blue certs. SEGS Bids are for labels without negative comments. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.
